ABOUT ME

Computer Science Engineering Student at Lovely Professional University. Passionate about Cloud Computing, Web Development, AWS services, Docker, Linux, Git, and Problem Solving. Continuously improving technical skills through practical implementations and hands-on projects.

EDUCATION

Lovely Professional University

Bachelor of Technology in Computer Science Engineering

SKILLS

Programming: C++, Python

Web Technologies: HTML, CSS, JavaScript, React.js, SQL

Cloud & Tools: Git, GitHub, Linux, Docker, AWS EC2, GitHub Actions

EXPERIENCE

Computer Science Student actively learning Cloud Computing, Web Development, AWS, Docker, and Software Engineering through academic projects and self-learning.

PROJECTS

1. Cloud Resume Website with CI/CD

- Built a responsive personal portfolio website.
- Containerized using Docker.
- Deployed on AWS EC2.
- Automated deployment using GitHub Actions CI/CD.

2. Student Management System

- Developed a full-stack web application using React.js, HTML, CSS, JavaScript, and SQL for student record management.

ACHIEVEMENTS

- Built and deployed projects using AWS and Docker.
- Implemented CI/CD pipelines using GitHub Actions.
- Strong understanding of Git and Linux.
